all current changes and do not rebuild the app from scratch.
Priority order:
1. Fix the reported startup failure and verify the app starts successfully.
2. Verify the public deployment URL works.
3. Verify login/demo mode works.
4. Verify product creation, editing, and stock balance updates work and persist correctly.
5. Use fictional demo data only. Do not expose secrets or real customer data.
6. Clearly label unfinished e-invoice generation, validation, submission, and QR features as DEMO where applicable. Never claim actual tax-
